Skills

- JavaScript | TypeScript | React | Vue | Redux | Angular | Ember JS | React Native | Next JS | jQuery
- Material UI | Chakra UI | Tailwind CSS | And Design | Bootstrap | CSS
- Git | CI/CD | Jest | Mocha | Unit Testing | Microservices | Frontend

Experience

Senior Frontend Engineer <u>**Fintavapay**</u> *Abuja, Nigeria* **05/2022 till date**

- Implemented and optimized continuous integration/deployment pipelines for frontend applications, streamlining the development workflow. Conducted thorough code reviews, load/stress testing, and various level of testing (unit, integration, end to end) to ensure the reliability and quality of the frontend codebase.
- Implemented various payment checkout screen for third party payment integration via bank transfer, pay with fintech and other payment options.
- Enhanced frontend application by integrating robust telemetry solutions, providing valuable insights into user behavior and application performance.

Senior Frontend Engineer <u>**International Breweries**</u> *Banana Island, Lagos, Nigeria* **03/2021 – 04/2022**

- Spearheaded the creation of responsive and intuitive user interfaces, seamlessly integrating with backend microservices. Utilized frontend frameworks and libraries to achieve a modern and engaging user experience.
- Designed and implemented scalable frontend architectures, incorporating best practices and design patterns, Collaborated with cross functional teams to optimize frontend performance and ensure a smooth user journey.
- Led the end-to-end development of various frontend products, from initial system requirement analysis and partner dependencies to workload balancing, frontend implementation, testing, and the configuration of comprehensive monitoring and alerting systems.

Frontend / Mobile Engineer <u>**Omnibiz**</u> *Lagos, Nigeria* **09/2020 – 02/2021**

- Led the optimization efforts for responsive design, ensuring a seamless user experience across various devices and screen sizes
- Implemented a version controlled code repository that held all frontend related modules including the mobile app. This mono repo was implemented via NX smart mono-repos.
- Implemented and fine-tuned an advanced search feature, allowing users to easily find products through smart filtering, sorting and predictive search suggestions.
- Developed and integrated personalized recommendation algorithms, enhancing user engagement by suggesting products on user preference, browsing history and purchase behavior.
- Extended the application's reach by implementing multi-language support, enabling customers from certain linguistic background to navigate and make purchases with ease.
- Implemented a robust order tracking system with real-time status updates and notifications, keeping customers informed about the status if their purchases from order placement to delivery.

Frontend Engineer <u>**Afiari**</u> *Lagos, Nigeria* **02/2020 – 08/2020**

- Implemented a geolocation-bases store locator feature, allowing users to easily find nearby physical stores, providing a seamless transition between online and in-store shopping experiences.
- Established a real-time inventory synchronization system, ensuring that the online platform accurately reflects the availability of products in nearby stores. This reduces the livelihood of out-of-stock and enhances customer satisfactions.
- Enhanced the online grocery experience by incorporating smart shopping list that consider users' preferred local stores, providing, personalized recommendations and ensuring a more tailored shopping journey.

Frontend Engineer <u>**Findcribs**</u> *Lagos, Nigeria* **12/2019 – 02/2020**

- Implemented mobile app website for visualization and marketing

Education

Bachelor of Science <u>**University Of Benin**</u> *Edo State, Nigeria* **07/2020**

- Building Construction and Quantify Surveying

Top Projects

- **EXPEDITOR**: Realtime delivery truck tracking and tracing system with insight about various irregularities on a trip **(02/2022)**
- **BIZIPAY**: A mobile money solution that offers a secure platform for users to manage their finances with convenience **(11/2023)**
